Photos/videos may be taken for archival and publicity purposes.

Overall venue and atmosphere shots may be taken without individual approval.

In such cases, we will try to: avoid close-up shots, avoid intrusive photography.

If you prefer not to appear in photos/videos, please inform the organisers.

Talks may be recorded for archival and publicity purposes.

Panel/round-table discussions and Q&A sessions will not be published.

Speakers may decide after their talk whether the recording may be published online.

Speakers who prefer not to have their talk recorded are requested to inform the organisers in advance.
